EXECUTIVE SUMMARY

This report is submitted to meet the provisions of Family Code (FC) sections 17600(c) and 17600(g), requiring annual and semi-annual reporting by the Department of Child Support Services (DCSS) to the Legislature on the status of the Child Support Program and the performance of local child support agencies (LCSAs). This semi-annual report covers the performance results for the first two quarters of Federal Fiscal Year (FFY) 2021, beginning October 1, 2020, and ending March 31, 2021. The report provides detailed state and local level information on performance measures except for data on program costs, program administration and cost effectiveness as these are only available on an annual basis.

DCSS established Child Support Program performance standards effective January 1, 2001, consisting of the federal and state measures to uniformly assess performance at national, state, and local levels.

Federal Performance Measures

- ✓ Paternity Establishment
- ✓ Child Support Order Establishment
- ✓ Collections on Current Support
- ✓ Collections on Arrears
- ✓ Cost Effectiveness (*collections compared to the cost of collections, available on an annual basis only*)

State Performance Measures

- ✓ Percent of Cases with Collections of Current Support
- ✓ Average Amount Distributed per Case with a Collection
- ✓ Percent of Cases with a Support Order Established During Report Period
- ✓ Percent of Cases Requiring a Support Order with Alleged Fathers or Obligors Served with a Summons and Complaint
- ✓ Percent of Cases with Support Orders Established with Medical Support Ordered and Provided
- ✓ Comparison of Received Complaints to Cases (*customer service*)
- ✓ Total Direct Cost of Administering the LCSAs, including share of costs, and the incentive funding received by each county (*available on an annual basis only*)

- ✓ Total Indirect Cost of Administering the LCSAs, including share of costs, and the incentive funding received by each county (*available on an annual basis only*)

For the semi-annual period ending March 31, 2021, California exceeded the minimum threshold on these federal performance measures: Paternity Establishment; Child Support Order Establishment; Collections on Current Support; and Collections on Arrears.

FC section 17600(c)(4)(A) requires DCSS to report annually on the *direct* costs of the program, broken down further by total employee salaries and benefits, and a list of the number of the employees, broken down by job classification.

FC section 17600(c)(4)(B) mandates that DCSS report semi-annually on the *indirect* program costs, showing all overhead charges; however, the data required is only available to the Department on an annual basis and therefore cannot be included in this report. The absence of this information also makes it impossible to calculate the cost effectiveness measure at the mid-year point.

CHILD SUPPORT PERFORMANCE OVERVIEW

Statutory Requirements

This report satisfies the requirement of FC sections 17600(c) and 17600(g) requiring a semi-annual report of data compiled on California's Child Support Program.

Performance Measures

Some data is only available annually; therefore, this report does not include data for all the State and Federal Performance Measures. The semi-annual report addresses the following performance measures:

Federal Performance Measures

- ✓ Paternity Establishment Percentage (PEP)
 - Statewide PEP
 - IV-D PEP
- ✓ Percent of Cases with a Support Order Established
- ✓ Percent of Collections on Current Support
- ✓ Percent of Cases with Collections on Arrears

See Table A on page 6 for a summary of the Federal Performance Measures comparing the semi-annual periods of March 2020 and March 2021.

State Performance Measures

- ✓ Percent of Cases with Collections of Current Support
- ✓ Average Amount Distributed per Case with a Collection
- ✓ Percent of Cases with a Support Order Established During Report Period
- ✓ Percent of Cases Requiring a Support Order with Alleged Fathers or Obligors Served with a Summons and Complaint
- ✓ Percent of Cases with Support Orders Established with Medical Support Ordered and Provided
- ✓ Comparison of Received Complaints to Cases

See Table B on page 7 for a summary of the State Performance Measures comparing the semi-annual periods of March 2020 and March 2021.

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) implemented an incentive funding system based on Federal Performance Measures. The intent of the incentive funding system is to use specific performance measures to gauge the program's success in achieving federally set goals and objectives and to reward states for achieving these goals.

States must meet a minimum threshold for each performance measure to earn incentive payments. Failure to meet a threshold not only disqualifies a state from earning incentive payments on that measure but may also subject the state to penalties on its Temporary Assistance to Needy Families (TANF) block grant.

The State Performance Measures were established by California to monitor aspects of the Child Support Program not covered by the Federal Performance Measures, giving DCSS additional insight and indicators to measure program accomplishments.

Overall, both federal and state performance measures are a means to effectively and continuously, monitor, evaluate, and improve the performance of the Child Support Program.

FEDERAL PERFORMANCE MEASURES

STATEWIDE PATERNITY ESTABLISHMENT PERCENTAGE

The Federal Performance Measure for the Statewide Paternity Establishment Percentage (PEP) measures the ratio of the total number of children for whom paternity has been established or acknowledged during the current FFY, to the total number of children born out-of-wedlock in the state during the prior calendar year, expressed as a percentage.¹ This calculation uses the number of children, not the number of cases. A paternity can only be counted once, either when a voluntary acknowledgment is filed or at the time a court order determining paternity is established. For incentive calculation purposes, states can choose whether to have their PEP evaluated using one of two measures: IV-D PEP or Statewide PEP. DCSS elects to use the Statewide PEP measure. The IV-D PEP measure is also included in this report on pages 10 and 11.

For this mid-year report, the Statewide Paternity Establishment is 91.8 percent, an increase of 4.6 percentage points compared to 87.2 percent in the first half of FFY 2020. See Table C on page 9.

¹ This percent is calculated from data reported on the CS 1257 Report, line 9 (Children in the State With Paternity Established or Acknowledged During the FFY) divided by line 8a (Children in the State Born Out-of-Wedlock During the Prior Year) Vital Records (VR) Data. For this calculation, the denominator represents data from a prior period; therefore, it is possible for Paternity Establishment Percentage (PEP) to be greater than 100 percent. The minimum federal performance threshold is 50 percent.

SOURCE: CS 1257 Line 9 (Children in the State with Paternity Established or Acknowledged During the Federal Fiscal Year and Line 8a (Children in the State Born Out-of-Wedlock During the Prior Year) - Vital Records (VR) Data
For this calculation, the denominator represents data from a prior period; therefore, it is possible for Paternity Establishment Percentage (PEP) to be greater than 100 percent.

Due to adjustments made to the CS 1257, line 9 statewide total count was reduced by 5. Therefore, the sum of the individual LCSA data for line 9 will not equal the statewide total.

* No activity reported by VR or no birthing hospital for the LCSA or an individual county in a regionalized LCSA; therefore, PEP cannot be calculated.

IV-D PATERNITY ESTABLISHMENT PERCENTAGE

The Federal Performance Measure for IV-D Paternity Establishment Percentage (IV-D PEP) measures the ratio of the total number of children in the IV-D caseload at the end of the current month for whom paternity has been established or acknowledged, to the total number of children in the IV-D caseload at the end of the month (prior year) who were born out-of-wedlock, expressed as a percentage.²

Though California opts to use Statewide PEP as its Federal Performance Measure, IV-D PEP is provided to LCSAs in comparative data reports to monitor additional elements of paternity establishment performance at the local level.

At mid-year FFY 2021, the IV-D Paternity Establishment was 94.5 percent which is a decrease of 0.9 percentage points compared to 95.4 percent in the first half of FFY 2020. See Table D on page 11.

² This percent is calculated from data reported on the CS 1257 Report, line 6 (Children in IV-D Cases Open During or at the End of the Month With Paternity Established or Acknowledged) divided by line 5a (Children in IV-D Cases Open at the End of the Month (Prior Year) Who Were Born Out-of-Wedlock). For this calculation, the denominator represents data from a prior period; therefore, it is possible for Paternity Establishment Percentage (PEP) to be greater than 100 percent. The minimum federal performance threshold is 50 percent.

SOURCE: CS 1257 Lines 5a (Children in IV-D Cases Open at the End of the Month (Prior Year) Who Were Born Out-of-Wedlock) and 6 (Children in IV-D Cases Open During or at the End of the Month With Paternity Established or Acknowledged)
For this calculation, the denominator represents data from a prior period; therefore, it is possible for Paternity Establishment Percentage (PEP) to be greater than 100 percent.
Due to adjustments made to the CS 1257, lines 5a and 6 statewide total counts were reduced by 2,327 and 2,325, respectively. Therefore, the sum of the individual LCSA data for lines 5a and 6 will not equal the statewide total.

PERCENT OF CASES WITH SUPPORT ORDERS ESTABLISHED

This Federal Performance Measure determines the percent of child support cases in which a child support order has been established.³ Support orders are defined as legally established enforceable orders, including orders for medical support. Establishing a support order is required to legally enforce collections.

Midway through FFY 2021, the number of cases statewide was nearly 1.1 million. Approximately 1 million or 92.4 percent of those cases had support orders established. This was an increase of 0.4 percentage points compared to 92.0 percent in the first half of FFY 2020. See Table E on page 13.

³ This percent is calculated from data reported on CS 1257 Report, line 2 (Cases Open at the End of the Month with Support Orders Established) divided by line 1 (Cases Open at the End of the Month). The minimum federal performance threshold is 50 percent.

PERCENT OF COLLECTIONS ON CURRENT SUPPORT

Collections on current support measures the percentage of current support collected and distributed compared to the total amount of current support owed.⁴

Current Assistance, Former Assistance, and Never Assistance cases, cases with cash medical support payments, and cases closed during the report period that had current support due are included in this measure.

For mid-year FFY 2021, this measure was 66.4 percent, an increase of 0.7 percentage points compared to the mid-year FFY 2020 of 65.7 percent. See Table F on page 15.

⁴This percent is calculated from data reported on the CS 1257 Report, line 25 (Total Amount of Support Distributed as Current Support During the FFY) divided by line 24 (Total Amount of Current Support Due for the FFY). The minimum federal performance threshold is 40 percent.

PERCENT OF CASES WITH COLLECTIONS ON ARREARS

This Federal Performance Measure captures the percent of child support cases that owe past due child support in which at least one payment was made toward that arrearage during the report period.⁵ An arrearage is reported any time a current support payment is missed. The measure includes Current Assistance, Former Assistance, and Never Assistance cases, as well as cases closed during the report period.

The statewide percent of cases with collections on arrears for FFY 2021 semi-annual report period was 65.6 percent, an increase of 6.5 percentage points compared to 59.1 percent for the FFY 2020 semi-annual period. See Table G on page 17.

⁵ This percent is calculated from data reported on the CS 1257 Report, line 29 (Cases Paying Toward Arrears During the FFY) divided by line 28 (Cases With Arrears Due During the FFY). The minimum federal performance threshold is 40 percent.

STATE PERFORMANCE MEASURES

PERCENT OF CASES WITH COLLECTIONS OF CURRENT SUPPORT

This State Performance Measure determines the percent of cases in the IV-D caseload receiving payments for current support compared to the total number of cases with current support due.⁶ Unlike the Federal Performance Measure of collections on current support, this measure evaluates the number of cases owing and receiving current support, not the total dollar amounts owed and received.

The percent of cases with collections of current support for the first half of FFY 2021 was 83.6 percent, an increase of 5.3 percentage points compared to 78.3 percent at mid-year FFY 2020. See Table H on page 19.

⁶ This percent is calculated from data reported on the CS 1257 Report, line 45 (Cases Paying Toward Current Support During the FFY) divided by line 44 (Cases with Current Support Due During the FFY).

SOURCE: CS 1257 Lines 44 (Cases With Current Support Due During the Federal Fiscal Year) and 45 (Cases Paying Toward Current Support During the Federal Fiscal Year)
Due to adjustments made to the CS 1257, lines 44 and 45 statewide total counts were reduced by 2,084 and 1,784, respectively. Therefore, the sum of the individual LCSA data for lines 44 and 45 will not equal the statewide total.

AVERAGE AMOUNT DISTRIBUTED PER CASE WITH A COLLECTION

This State Performance Measure determines the average amount distributed per case for all cases with a collection. The measure represents the unduplicated count of child support cases with at least one collection of support during the report period compared to the total amount of distributed collections (current support and arrears) during the report period.⁷

At mid-year FFY 2021, California collected and distributed \$1.3 billion in child support. When applying the 645,837 cases with a collection, the statewide average amount distributed per case with a collection was \$2,025. The average collection decreased by \$13 per case compared to \$2,038 at mid-year FFY 2020. See Table I on page 21.

Additionally, FC section 17600(b)(6), requires this report to contain information as to the total child support distributed during a federal fiscal year, broken down by Current Assistance, Former Assistance, and Never Assistance cases. See Table J on page 22.

⁷ This measure is calculated from data reported on the CS 1257 Report, sum of line 25 (Total Amount of Support Distributed as Current Support During the FFY) and line 27 (Total Amount of Support Distributed as Arrears and Interest During the FFY) divided by line 18 (Cases With Collections During the FFY).

PERCENT OF CASES WITH A SUPPORT ORDER ESTABLISHED DURING REPORT PERIOD

This State Performance Measure determines the number of cases that had a child support order established during the report period, compared to the number of cases open at the end of the period requiring the establishment of a support order, expressed as a percentage.⁸

In the first half of FFY 2021, 23,849 cases or 18.5 percent of cases requiring a child support order had a support order established during the report period. This is a decrease of 0.5 percentage points compared to 19.0 percent in the first half of FFY 2020. See Table K on page 24.

⁸ This percent is calculated from data reported on the CS 1257 Report, line 17 (Cases With Support Orders Established During the FFY) divided by the sum of line 17 and line 12 (Cases Open at the End of the Month Requiring Services to Establish an Order).

PERCENT OF CASES REQUIRING A SUPPORT ORDER WITH ALLEGED FATHERS OR OBLIGORS SERVED WITH A SUMMONS AND COMPLAINT

The purpose of this State Performance Measure is to determine the percent of cases requiring a support order with alleged fathers or obligors served with a summons and complaint to establish a paternity or a support order.⁹ The court process requires that the alleged father or obligor must be served with a summons and complaint (either in person or by certified mail) to legally establish paternity or to establish an order for child support.

During the first half of FFY 2021, a total of 23,149 cases with alleged fathers or obligors were successfully served with a summons and complaint, in comparison to 129,144 cases requiring a support order, which amounts to 17.9 percent of the cases. This is a decrease of 0.6 percentage points from mid-year FFY 2020 of 18.5 percent. See Table L on page 26.

⁹ This percent is calculated from data reported on the CS 1257 Report, line 43 (Number of Cases With Alleged Fathers or Obligors Successfully Served With a Summons and Complaint During the FFY) divided by the sum of line 17 (Cases With Support Orders Established During the FFY) and line 12 (Cases Open at the End of the Month Requiring Services to Establish an Order).

PERCENT OF CASES WITH SUPPORT ORDERS ESTABLISHED WITH MEDICAL SUPPORT ORDERED AND PROVIDED

The State Performance Measure for cases with a medical support order determines the percent of cases with support orders established with medical support ordered and provided. Current Assistance, Former Assistance, Never Assistance, as well as cases closed during the report period, are included in this measure.¹⁰

In the first half of FFY 2021, 37.4 percent of the cases with child support orders established also had medical support ordered and provided. This is a decrease of 1.1 percentage points compared to 38.5 percent in the first half of FFY 2020. See Table M on page 28.

¹⁰ This percent is calculated from data reported on CS 1257 Report, line 21a (Cases Open at the End of the Month in Which Medical Support is Ordered and Provided) divided by line 2 (Cases Open at the End of the Month With Support Orders Established) minus line 2e (Arrears-Only IV-D Cases With Orders Established Open at the End of the Month).

COMPARISON OF RECEIVED COMPLAINTS TO CASES

This State Performance Measure shows a comparison of the number of opened complaints to the total caseload for each LCSA. The purpose of this information is to assess the effectiveness of case management for each county's Child Support Program. The comparison utilizes county caseload to compute the number of complaints per 10,000 cases.¹¹

Family Code section 17800 requires the maintenance of a uniform complaint resolution process within the LCSAs. DCSS developed the Complaint Resolution Tracking System (CRTS) to ensure uniform complaint resolution data tracking and reporting. All LCSAs are required to use CRTS to enter complaint data.

The semi-annual report is a cumulative count of opened complaints in the CRTS for the first half of the federal fiscal year. Monthly comparative data reports use the CRTS count based on the number of complaints for the month.

During the first half of FFY 2021, CRTS reported 293 complaints opened compared to 286 during the first half of FFY 2020, this represents an increase of 2.4 percent or an increase of 7 complaints. See Table N on page 30.

¹¹ Complaint information is based on the Number of Opened Complaints in the Complaint Resolution Tracking System (CRTS), Complaint Activity Report, and caseload data reported on the CS 1257 Report, line 1 (Cases Open at the End of the Month).

DEFINITIONS

California's Child Support Program operates within a complex federal and state statutory and regulatory construct. There are many terms used within the program that have a specific meaning and are reflected in the federal and state performance measures. Terms commonly used in the performance measures are:

- **IV-D Program** - The state child support enforcement program, enacted under Title IV-D of the federal Social Security Act, locates noncustodial parents or putative fathers; establishes paternity; establishes, modifies, and enforces child support and medical support orders; and collects and distributes child support payments.
- **IV-D Case** - A case in which a state provides child support services as directed by the state or tribal Child Support Program that is authorized by Title IV-D of the Social Security Act. A IV-D case is comprised of:
 - A dependent child or children
 - A custodial party who may be a parent, caretaker relative or other custodian, including an entity such as a foster care agency; and
 - A noncustodial parent or parents, a mother, a father, or a putative father whose paternity has not been legally established.
- **Current Assistance Case** - A case where the children are: (1) recipients of Temporary Assistance for Needy Families (TANF) under Title IV-A of the Social Security Act, or (2) entitled to Foster Care maintenance payments under Title IV-E of the Social Security Act. In addition, the children's support rights have been assigned by a caretaker relative to a state or tribe, and a referral to the state or tribal child support agency has been made. Also, a TANF IV-D case or Foster Care IV-D case.
- **Former Assistance Case** - A case where the children formerly received Title IV-A (AFDC or TANF) or Title IV-E foster care services.
- **Never Assistance Case** - A Title IV-D case that is not currently and has never in the past received aid under AFDC, CalWorks (which includes legal immigrant program), or foster care.

- **Medical Support** - Medical coverage provided for a child or children pursuant to an order. This includes: (1) private health insurance, (2) publicly-funded health coverage if a parent is ordered by a court or administrative process to provide cash medical support payments to help pay the cost of Medicaid or Children's Health Insurance Program (CHIP), (3) cash medical support, including payment of health insurance premiums, and (4) payment of medical bills (including dental or eye care). Indian Health Service and Tricare are acceptable forms of medical support. Medical support may be provided by the custodial parent, noncustodial parent or another person, such as a stepparent.
- **Support Order** - A judgment or order of support, including medical support, whether temporary, final, or subject to modification, termination, or remission, regardless of the kind of action or proceeding in which it is entered.
- **Paternity** - The legal establishment of fatherhood for a child, either by court determination, administrative process, tribal custom or voluntary acknowledgment. A paternity acknowledgment involves the legal establishment of fatherhood for a child through a voluntary acknowledgment signed by both parents as part of an in-hospital or other acknowledgment service.
